

## Fire Solutions Limited Quality Policy

Fire Solutions Limited designs, manufactures, installs, tests, commissions and maintains Fire Systems in accordance with all applicable New Zealand statutory and regulatory requirements, published New Zealand Standards and agreed customer specifications/contractual obligations.

The company's senior management are committed to quality and leadership of the systems, thus bearing the responsibility for establishing, implementing, integrating and maintaining the Management System, to ensure sufficient resources are made available within the organisation to achieve this.

We undertake to ensure through communication, engagement, practical examples and training that Quality is the aim of all members of the Organisation. Each employee will have a proper understanding of the importance of the Management System, their responsibility to contribute to its effectiveness, and its direct relevance to the success of the Organisation. All employees are responsible for and will be trained to perform the duties required by their specific roles.

The Organisation has a Policy of promoting continual improvement and setting of Quality Objectives in line with the framework laid down within ISO 9001:2015 Standard. These objectives will address the risks and opportunities within the Organisation as determined by senior management, with the aim to provide a world class service to its customers.

The Management System will be monitored, measured, evaluated and enhanced regularly by the senior managements, with regular reporting and communication of the status and effectiveness at all levels.
